MICHAELA YOUNG

Junior Software Developer

Graduated from an intensive coding bootcamp with a Certificate of Software Development. Built front-end and back-end web applications using full-stack C# .NET, MVC, Node.js, and other frameworks. Strong communication skills, pragmatic yet also a creative thinker, plenty of experience with people in a diversity of settings, comfortable with different cultures, takes the initiative, very task-oriented, and enjoys productivity, organizing, and condensing.

AWARDS

Italian American Society Award

Dean's List – 6 time recipient

President's List – 2-time recipient

INTERESTS

I enjoy walking everywhere on vacation, reading in a comfy chair, eating all things bread, riding horses fast, longboarding, painting, building lego sets, and going camping with husband, friends, and Siberian husky.
